

Dear God,

Help us pray for everyone that is ill, especially the ones in hospital.
We hope they get better soon, help us pray for them and help them
get hope and trust when they think about the Resurrection and Jesus.

Amen

Loving Father,

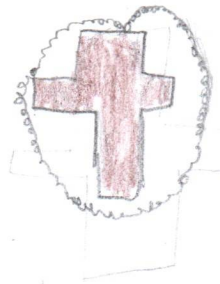

We can pray for our school community and our parish friends,
the teachers who always help us when we feel down and help
when we don't understand, help us pray and have hope when we
learn about the Resurrection.

Amen

Father in Heaven,

Help us to see for and protect our friends and family,
they need always there for us and love us. They are
really nice to us so let's hope they won't get into a difficult.
Let them think about the Resurrection and be filled with hope.

Amen

Loving God,

please help people that are demoralised because someone they love has died or passed away. The Resurrection of Jesus is hope that death is never the end and that there is a new life after death. Please help those that have this problem. Give them your infinite hope strength and love.

Amen

Ezekiel.S
